

MARINE CCTV HOUSING

Made from a high-resistance ABS/Nylon material, it guarantees complete protection against all environmental conditions, as well as being impact resistant. The Marine HOUSING has a large internal camera mounting area providing enough space for a internal PSU. The housing has a stainless steel sunshield and all fixings are also corrosion resistant. This provides a complete package ideal with the plastic construction for marine environments

TECH SPECIFICATIONS

Model Number	HAY-MARINE
Weight (unpacked)	1.7kg (3.32 lb)
IP Rating	IP 66
Housing Enclosure	Injection Molded ABS/Nylon
Colours	RAL9002/Black
Lens/Window	Flame-retardant VO-Margard
Operating Temperature	-20°C to +100°C
DIMENSIONS	
External (mm)	430 (L) x 187 (W) x 304 (H)
Internal Useful (mm)	320 x 120 x 100

KEY FEATURES:

- Corrosion resistant ASS/Nylon Material
- Flame retardant Front window VO-Marguard
- IP66 External Rating
- Temperature range -20C to +100C
- Large internal working area
- No Heater or Blower Needed
- Bracket options:
Standard
